Subscription & content dissemination all in one discounted bundle!

Third Sector organisations are all too often facing a challenging future involving increasing demand coupled with funding cuts.

Yet they need to keep abreast with what's happening in the field of emergency and crisis preparedness, get their stories out to key stakeholders and new partners, as well as demonstrating the benefits of their initiatives and work to donors and the wider community. It is also vital to highlight campaigns, specific issues and to share successes among the wider community, pollinating ideas and co-operation.

Let us help you!

We have put together a package that gives NGOs, charities and voluntary organisations a bigger voice within our global community.

This means you can spread your influence, highlight the issues you need to raise, and get up to date thought leadership, research and news across the entire crisis and disaster universe.

For as little as £2,400 a year (ex VAT) we have put together a package that saves more than £6,000 on the regular Platinum Key Network Partnerships, with all of its benefits:

- EVERY member of your organisation will receive a full digital subscription to the Crisis Response Journal, including archive access, wherever they are in the world
- Two hard copies of each journal edition to a nominated person
- Monthly blog or news items published on our website, which receives 2.2 million hits and 270,000 visits a month
- Inclusion in our bimonthly newsletters
- Social media promotion via our Twitter and LinkedIn channels
- TWO pages of editorial in each edition of the Crisis Response Journal hard copy and digital editions
- FULL LISTING as a Key Network Partner, with dedicated page on the CRJ website
- Membership of our Advisory Panel – help to shape our content and direction

And to make it even easier, **you pay monthly – just £200 pcm** (ex VAT) – with just a month's cancellation notice, though we do recommend an initial trial of three months, so you can get the benefits of the quarterly journal subscription and editorial.

We work with you, to amplify your message – we talk to you to discuss the issues and events that you want to raise, and then work out a programme of the best way to do this.

Give it a try!
